

Hong Kong International Film and TV Market (FILMART) 2008

Organised by the Hong Kong Trade Development Council, FILMART 2008 was held from March 17 to 20 at the Hong Kong Convention and Exhibition Centre. FILMART sets out to provide a cross-media, cross-business platform to facilitate financing, distribution and production of films and TV programmes, in an attempt to promote Hong Kong's role as the production and sales centre for media and entertainment products in the Asia Pacific region. The Hong Kong Film Archive took this opportunity to introduce to visitors our facilities and services, and in a broader sense our mission of promoting Hong Kong film culture and researches on film history.

International Museum Day (IMD) Hong Kong 2008

The IMD Hong Kong 2008 programme was held from May 17 to 18 at the Hong Kong Cultural Centre Piazza. As one of the major highlights, the Museum Panorama gathered 30-plus museums from Guangdong province, Hong Kong, Macau and Beijing which put up altogether 28 booths to introduce to visitors their functions and characteristics. It is hoped that through games, video programmes and workshops, members of the public could understand better the participating museums and the cultural landscapes of the four cities. Below is the HKFA booth.
